

Dear Dr. Henney,

I am writing to express my opposition to PM
FDA's proposed new rule and guidance on
genetically engineered (GE) foods. We oppose
the agency's voluntary labeling and
notification proposals in support of all the
points in the citizen's petition currently
before the agency (docket #00P-1211/CP1).

- ☒ All GE foods should be labeled so that
informed and have a choice.
- ☒ GE foods should not be assumed to be
"generally recognized as safe" and should
have mandatory pre-market safety testing
- ☒ There should be a moratorium on GE foods
until long-term studies show they are safe for
human health and the environment.

(Additional Personal Comments:)

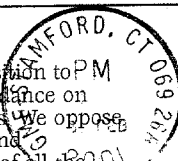

*I am strongly opposed to
foods being genetically engineered. Leave well
enough alone! No justification in my mind.*
